

Caring for our patients amidst Covid-19:

As we navigate Covid-19, our biggest commitment is keeping our patients, staff and communities healthy. We want to share what we are doing to ensure a safe visit to our office:

- Dr. Wang and his assistant/s now use additional disposable personal protective equipment (gown, cap and face shield) during all procedures.
- We allot 20 minutes to full disinfect each operatory, waiting area, and elevator in between patients.
- We invested in UV light technology to sanitize surfaces between patients, in addition to the use of disinfecting products.
- We have purchased additional medical-grade air purification machines to....
- Our office manager conducts a pre-screening prior to your visit, and another screening on the day of your visit which includes taking your temperature and asking a few question about your health.
- We observe social distancing within our office by coordinating patients' arrival to minimize time spent in our waiting room.

We are grateful for your continued support and we wish you and your loved ones well.
